RE: AB 1242

Dear Assemblymember Gray,

The Stanislaus County Chapter of California Women for Agriculture, would like to offer our support, of you and your staff, in supporting Assembly Bill 1242.

We can't allow the proposed State Water Resources Control Board's Bay Delta Water Quality Control Plan (Bay-Delta Plan), to go into effect, as this plan undermines any efforts to secure groundwater sustainability.

Consumers, Farmers and local water companies, have worked together effectively for so many years, to sustain our groundwater for both Agriculture and domestic use. We see no reason to allow Federal and State Agencies to change that.

AB1242 makes it impossible to successfully achieve the mandates set forth in the Sustainable Groundwater Management Act of 2014 (SGMA).

Please don't hesitate to contact us, should you or your staff need our assistance.

Sincerely,

Brandi LoForti
Stanislaus Chapter President
California Women for Agriculture
